

Eagle Ridge Golf Course Environmental Policy

Eagle Ridge Golf Course is an 18 hole public access golf course for the enjoyment of members and guests. Located amongst sensitive coastal and wetland vegetation, the course occupies 41 hectares.

WE RECOGNISE OUR RESPONSIBILITY TO THE ENVIRONMENT AND WE ARE COMMITTED TO OPERATING OUR GOLF COURSE MAINTENANCE ACTIVITIES IN AN ENVIRONMENTALLY SUSTAINABLE MANNER.

To undertake our activities responsibly we will;–

- Develop, implement and maintain a structured and credible environmental management system incorporating the goals of this policy;
- Constantly strive to achieve continual improvement and the prevention of pollution in our environmental performances;
- As a minimum comply with the applicable legal requirements and other requirements to which we subscribe that relate to our environmental activities and products and services;
- Continue to recognise the environmental, recreational, social significance of our golf club;
- Proactively manage our interaction with the environment by setting environmental objectives and targets and assessing our achievements;
- Develop and implement measures and technology to best manage our golf course maintenance activities to balance environmental values with the operational and recreational requirements of the course ;
- Openly communicate our environmental policy to all those who work for on behalf of our organisation;
- Ensure transparency in our environmental decision making;
- Foster an environmentally responsible attitude within our club by providing appropriate training and competency assessments;
- Annually review this policy.

THE IMPLEMENTATION OF THIS POLICY IS THE RESPONSIBILITY OF SENIOR MANAGEMENT AND ADHERAENCT TO THIS POLICY IS THE RESPONSIBILITY OF ALL WHO WORK ON BEHALF OF OUR ORGANISATION.
